

Children's Homes

A large number of children in need of care and protection are admitted to their homes for their long term care, treatment, education, training, development and rehabilitation in these homes with the orders of Child Welfare Committee. These homes provide comprehensive child care facilities to children for ensuring their all-round development. They work towards enhancing the capabilities and skills of children and work with their families/relatives with the view of facilitating their reintegration and rehabilitation into mainstream of the society.

State Government has established 7 children homes where boarding, lodging and education and other facilities are being provided to the inmates in the age group of 7 to 18 years.
